Admit it. Your apartment looks less than "well thought out". You are not now, nor will you ever be, someone friends will ask for decorating advice. You do not know whether chartreuse and mauve are warm and inviting or cold and sterile, and you giggle every time someone mentions an accent wall (oui oui). You are good at other things, just not this.

No fear. We dug long and deep to find the best reviewed NYC interior designers and we will serve them up to you after the jump...
